

MEET A NAPP MEMBER

GENNA HIBBS

Reg. No. 75,849

I heard about NAPP as one of those new patent attorneys that received a post card and joined Summer of 2017 after passing the patent Bar. I have attended the Annual Meeting & Conference (AMC), served on the AMC planning committee, and currently serve as the public relations committee chair.

I am a Patent Attorney and practice intellectual property law in the firm I founded in 2013, Hibbs law, LLC. My technical field is Genetics/Biotechnology. I Volunteer with the Patent Hub and provide free presentations on IP to various organizations and non-profits.

NAPP provides members with a group atmosphere and comradery, and lack of pretense between colleagues, and they let me run a toga party at the 2019 AMC!

Other activities that I enjoy are chasing a burgeoning toddler, tending to my vegetable garden, painting figurines, playing Warhammer 40,000 (table-top battle game) bike commuting, and spend my time with my wonderful spouse and family.
