

AI

SYMPOSIUM

for Patent Practitioners

DAY-LONG VIRTUAL EVENT

NOVEMBER 12, 2026

6 CLE CREDITS

2026 Sponsorship Opportunities

What is the AI Symposium?

The NCPP and NAPP AI Symposium is a full-day virtual educational program focused exclusively on the practical, ethical, and responsible use of artificial intelligence in patent preparation and prosecution. The symposium will bring together patent attorneys, patent agents, and IP professionals to explore AI governance, implementation, workflow optimization, drafting, prosecution, prior art, quality control, ethics, and emerging best practices. Attendees will earn 6 CLE credit hours while gaining practical strategies they can immediately apply to their practices.

For sponsors, the symposium offers a highly targeted opportunity to reach patent professionals actively evaluating and adopting AI technologies while demonstrating thought leadership and supporting the advancement of the profession.

Why Sponsor?

Build Brand Visibility

Put your company in front of a targeted audience of patent professionals through the AI Symposium marketing efforts and live at the day-long event.

Showcase Your Expertise

Gain speaking opportunities to share practical insights, demonstrate thought leadership, and position your company as a leader in AI and patent practice.

Support & Engage the Patent Community

Align your brand with valuable CLE education and NCPP/NAPP's mission to help patent practitioners navigate the responsible adoption of AI.

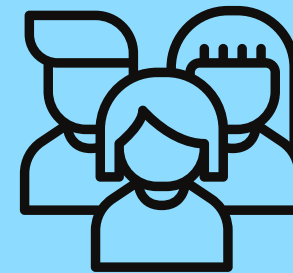

The ***NCPPTM and NAPP AI Symposium*** gives companies a unique opportunity to reach patent attorneys, patent agents, and IP professionals who are actively seeking practical guidance on using AI in patent practice. By sponsoring, your company demonstrates its commitment to advancing the profession while supporting high-quality education that helps practitioners earn 6 CLE credit hours and develop practical, responsible AI skills.

With the participation of our sponsors, we can continue hosting this impactful event year after year.

AI Symposium by the Numbers

We built a program that is **VALUABLE** to all who attend including registrants, speakers and sponsors!

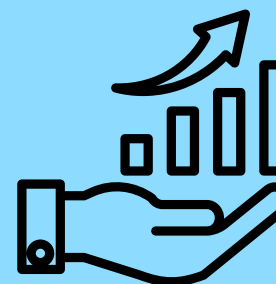

Patent Practitioners

We are planning for 300+ practitioners to attend in 2026.

Sponsors

We anticipate 10-15 sponsors for the 2026 online event.

Business Promo Opportunities

The program allows speaking opportunities with numerous promotion vehicles.

Experts

We are planning for 10-12 speaker experts for the program delivering 6 CLE credits.

USPTO

Representatives

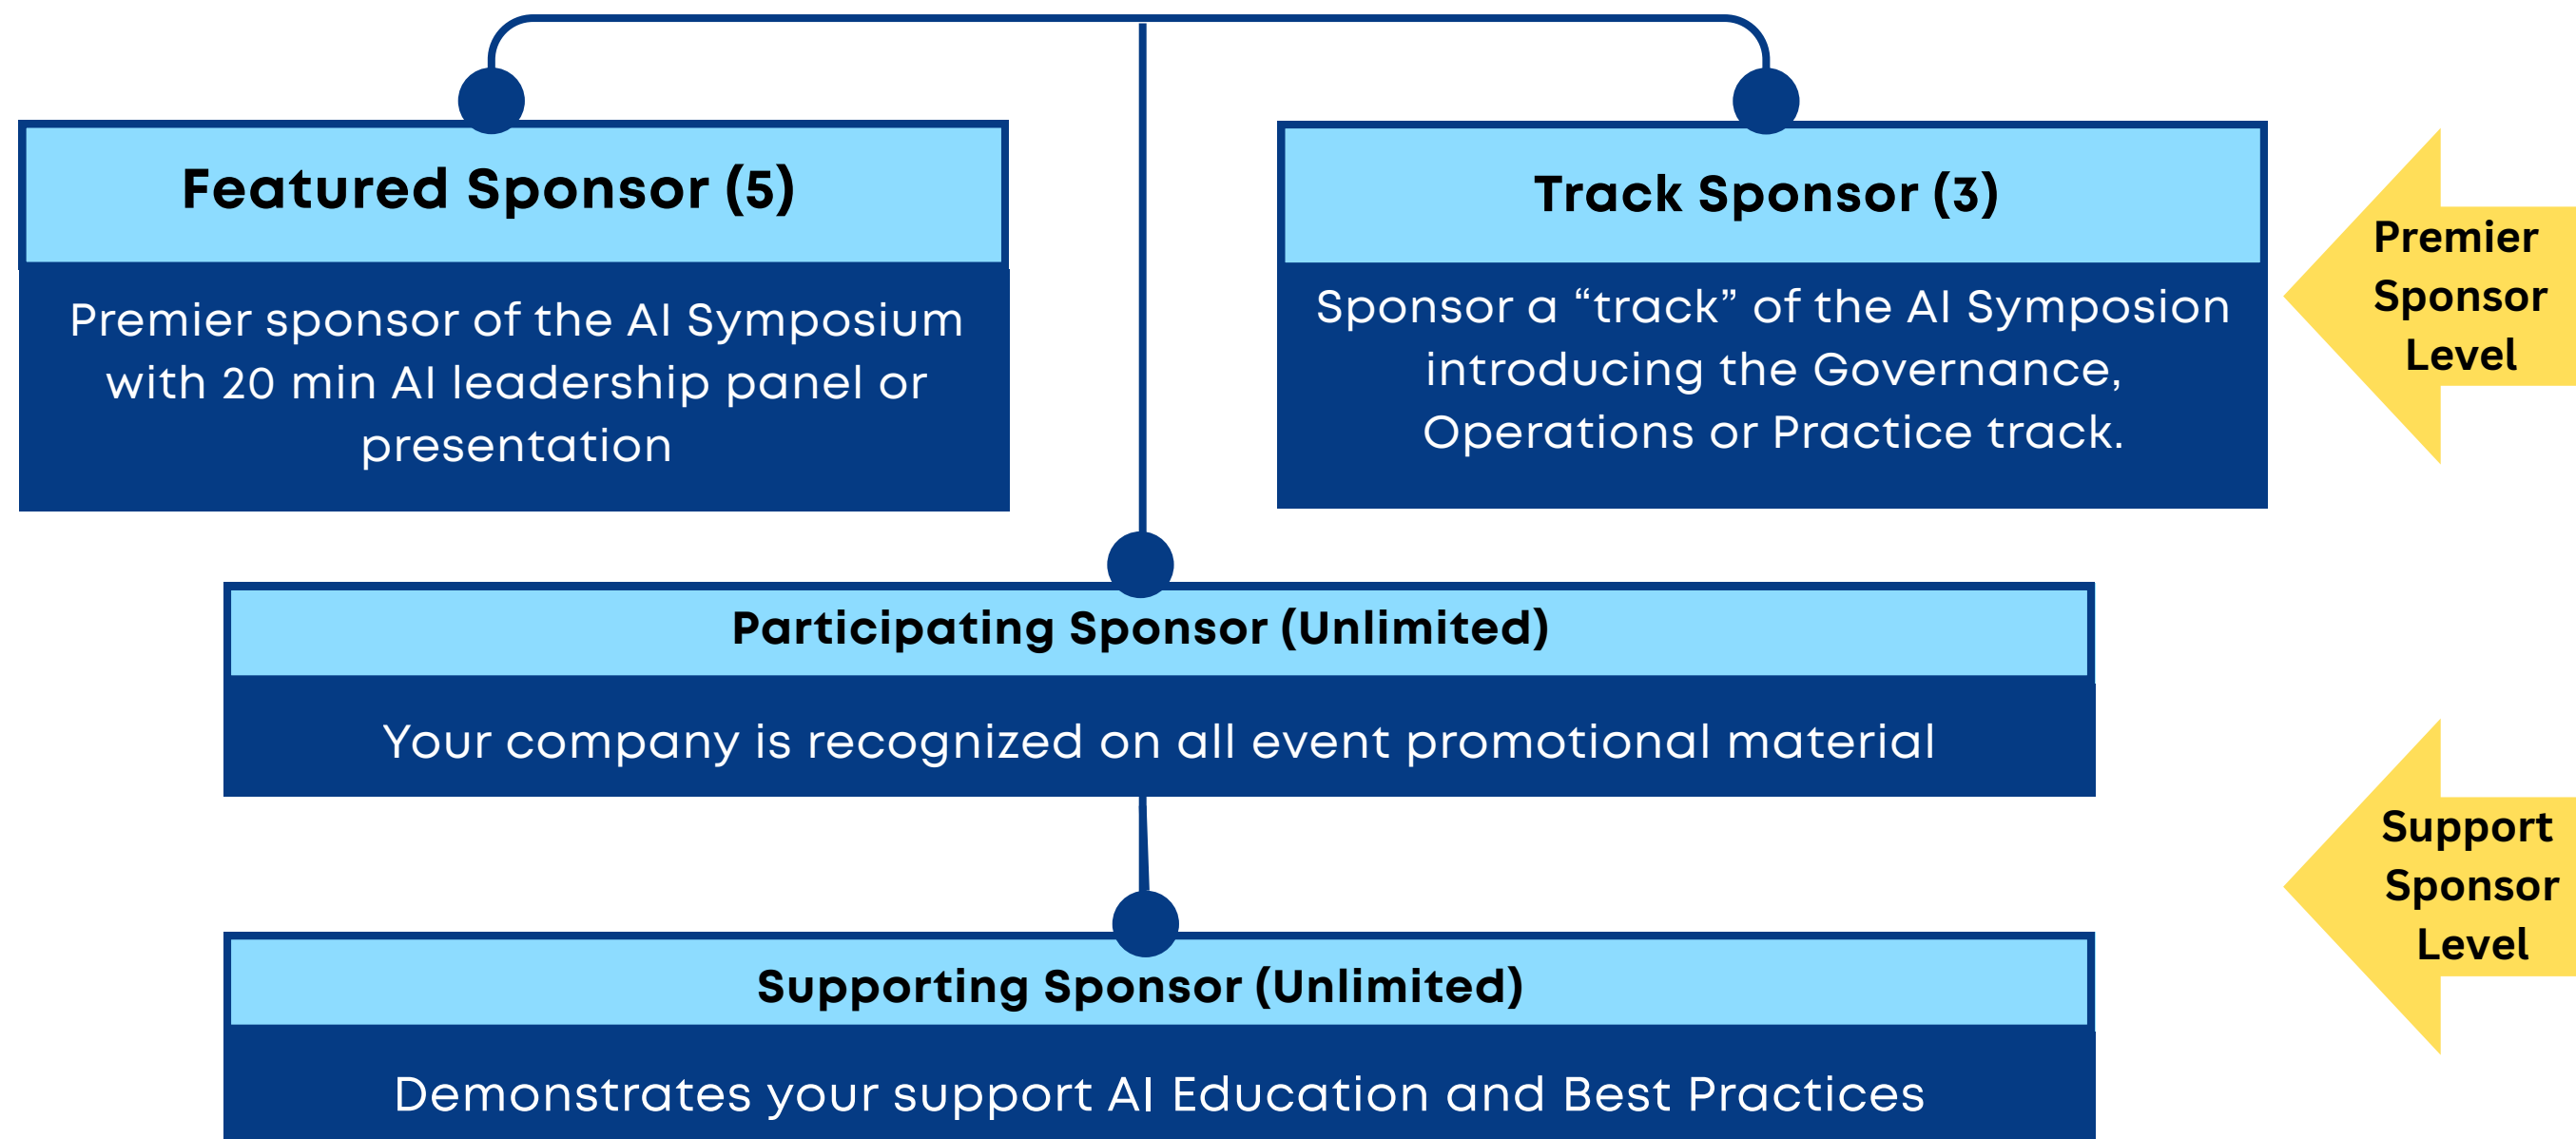

We anticipate 2-4 representatives from the USPTO.

Leadership

We are taking a leadership role in education and responsible use of AI among practitioners
